

Education Inclusion Family Advisor Newsletter

June 2023

Hello everyone and welcome to a new week!

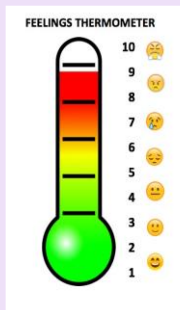

If you would like to chat to me, please contact me on the details below.

Supporting Emotional Literacy

The more a child is able to understand and express their feelings the more able they are to control their emotions. Taking all the words out of it can be beneficial.

Feelings thermometers are brilliant and if used by the whole family can really help everyone.

Put one up on the fridge and practice gauging how everyone is feeling on a daily basis. It really works!

Activity:

Now that the weather is looking more on the warm side, why don't you get outside and create some pictures using what is around you? Whether you are on a beach or in the middle of a wood, you can create some stunning pictures as a family with what lies around you.
