

July 2020

Dear Parents and Carers,

### Annual Reports to Parents and Carers 2020

We are posting out paper copies of the annual report to parents and carers this week. The reports will look a little different from previous years and are in line with the updated government guidance for schools given during this period of partial closure.

The format of the report is an extended version of the written reports we produce in the autumn and spring terms for the parent and carer consultations. We don't have results of statutory assessments as these were cancelled this year and there is not a requirement to send out the attendance certificate as the school year has been significantly reduced for all schools.

There is no expectation that parents and carers make further contact following the report. However, if you do have any questions arising from this report that you wish to discuss, please email the school office detailing the question(s) that you would like a response to by Tuesday 14<sup>th</sup> July at 4.00pm. Any email requests will be forwarded on to class teachers who will then have a week before the end of term to respond.

I will be writing to you all again before the end of term to share the initial planning for September.

Yours sincerely,

Ben Tull  
Head Teacher
