

Summer 1 2024 – Home Learning Ideas
 Early Years Foundation Stage
Growing

You may wish to take the time to complete a project at home this half term. Here are some possible starting points, or you may have an even better idea for a project. Please send in your completed project in to school to be shared in class. If you would prefer to send a picture or video, please send them to smorris@arbury.cambs.sch.uk

Your own idea!
 Do you have your own exciting idea for a project? We can't wait to see what you come up with!

<p>Plant a seed! Watch your plant grow and talk about the different parts of the plant. You might want to take a photograph or draw a picture of it each week to help monitor its growth.</p>	<p>Look at pictures of yourself when you were a baby. Talk about how you have grown and changed. Look at pictures of other members of your family and ask them about how life was different when they were little.</p>	<p>Go for a walk with a grown-up around a garden or park. Look carefully to see what plants and flowers you can see growing. You could take some photos or draw some pictures of the things you see.</p>

Remember to send us a picture or video of your home learning!
