

Autumn 1 2022 – Home Learning Ideas

Early Years Foundation Stage

People

You may wish to take the time to complete a home learning idea this half term. Here are some possible starting points, or you may have an even better idea for a project. Please send a picture or video of your completed project through Seesaw or bring it into school to share with the class.

Your own idea!
Do you have your own exciting idea for a project? We can't wait to see what you come up with!

Draw a picture or make a model of your family. You might like to use playdough or salt dough or draw using your favourite colours. You might like to have a go at copying or tracing the names of the people in your family. Bring in your picture or send us a photograph for us to talk about in class.

Look at different pictures of people in your family, especially pictures of when parents/grandparents were young. Talk about how people have changed. Find a picture of you as a baby, how have you changed? You might like to bring/send in some pictures for us to see, or a picture or video of you looking at pictures. You might even like to make your own photo album.

What do you want to be when you grow up? Talk about different jobs and then draw a picture or learn some interesting facts about a job you would like. You might want to visit the library to find an information book about different books and learn about different jobs too! We would love to see a drawing or a video of you talking about what you would like to be when you grow up.
