

Y1 – Spring 2 – 2024

You may wish to take the time to complete a home learning idea this half term. Here are some possible starting points, or you may have an even better idea for a project.

Please bring your completed project to school to share with the class.

Creative Art / DT

Draw or paint a scene showing your favourite type of weather.

Sketch some plants and flowers you see in an outdoor place.

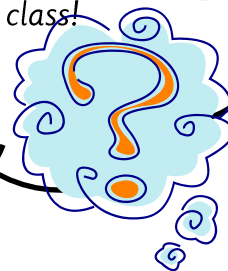

Plants/Weather

Plant a seed, watch it grow and make a plant diary. You could take a photo of it/draw it each day and see how it changes over time.

Research plant lifecycles in books or on the internet.

Your Own Idea

Do you have your own exciting idea for a project? Feel free to make, draw, write or do something about plants or the weather and bring it in to share with the class!

Creative Writing

Write a fact file about your favourite plant.

Imagine you are a seed. Write your journey to becoming a fully-grown plant.

Write a poem about the weather in the different seasons.

Maths

Keep practising number bonds to 10 and 20.

Count the plants in an outdoor place.

Record the weather for a week and make a chart.

Think about numbers up to 50 and how many tens and ones they have.
