

Y2 - Autumn 1 – 2022

Materials and the History of our School

You may wish to take the time to complete a home learning idea this half term. Here are some possible starting points, or you may have an even better idea for a project.

If you have completed a home learning idea, please share a photo on Seesaw or bring your work into school to share with the class.

We will be reading *The Tin Forest* by Helen Ward.
You might like to:

- Paint/collage a picture of the tin forest or a forest of your own design.
- Find some exciting facts about a rainforest.
- Write your own version of the story.
- Create a new character for the story.

Your own Idea

Do you have your own exciting idea for a project?

Creative – Art / DT etc

- Use junk modelling materials to create a model of our school or your classroom!
- Paint/collage/draw a classroom from the past – what might be the same and different?

Science / Research

- Research the history of Arbury or another place you visit.
- Help adults at home to sort out the recycling based on the materials that have been used.

Creative Writing

- Write a story with a school as a setting.
- Imagine a world where everything is made out of one material. Can you write a story about what it would be like? What might go wrong?

Maths

- Make a time line (you could use family birthdays or special events in a year).
- Count and record how many different materials you can find in your home. You could present your findings in a table or a graph.
