

Summer 2 2024 – Home Learning Ideas Early Years Foundation Stage Long, Long Ago

We will continue to send out a message via parent mail every Monday to let you know what we have been working on in school the previous week and what we will be working on that week so you can support your child at home. You may, however, also wish to take the time to complete a project at home this half term. Here are some possible starting points, or you may have an even better idea for a project. Please either bring your project into school or alternatively you could email a picture or video to Mrs Morris at smorris@arbury.cambs.sch.uk. She will then pass this on to your child's class teacher.

Your own idea!
Do you have your own exciting idea?
We can't wait to see what
you come up with!

Look at photographs from when your grown-ups were little and ask them about how life was different then. You might like to think about what phones were like and/or your memories of school and home.

Make a castle! You might like to use old cardboard boxes, lego, building blocks or other toys you may have. Be sure to share your creations with us!

Find out about different dinosaurs. You might like to make dinosaurs or draw pictures to share with your friends in class.
