

Summer 1 2022 – Home Learning Ideas
 Early Years Foundation Stage
Growing

Each week, we will send out an update on Seesaw to let you know our weekly focus and how you can support your child at home. However you may also wish to take the time to complete a project at home this half term. Here are some possible starting points, or you may have an even better idea of your own. Please send a picture or video of your completed project through Seesaw to be shared in class.

		
<p>Plant a seed! Watch your plant grow and talk about the different parts of the plant. You might want to take a photograph or draw a picture of it each week of the half term to help monitor its growth.</p>	<p>Look at pictures of yourself when you were a baby. Talk about how you have grown and changed. Look at pictures of other members of your family and ask them about how life was different when they were little.</p>	<p>Go for a walk with a grown-up around a garden or park. Look carefully to see what plants and flowers you can see growing. You could take some photos or draw some pictures of the things you see.</p>

Remember to send us a picture or video of your home learning idea on Seesaw!
